

Vizzcast Studio Information

Office Lighting

Instructions for operating the office and studio lighting are also provided in the studio and available for reference during your booking.

- A) Master light switch for the entire office.
- B) Overhead light switch (only functions once A is turned on).
- C) Studio grid lighting (Buttons 1–2). Button 3 controls the kitchen lights.

D) Near the kitchen, there is an additional switch similar to B.
This controls the overhead lights in that area and will only function once A is turned on.

Lighting

Button 1 – Studio Light Grid

Button 2 – Studio Light Grid

Button 3 – Kitchen Lighting

LED cabinet strip power switches are located at the rear of each cabinet.

Please ensure all studio lighting is turned off at the conclusion of your booking, including all Aputure and Nanlite fixtures.
